THE ESSENCE OF INNOVATION

NEW COLORS  
FINISHES  
OPTIONS

Lamin-Art's expanded Pearlescence® collection of **50 fashionable colors** and **6 select finishes** now offers design professionals 300 expressive and unconventional options to create distinctive interiors.

*"This product is truly interactive. It interacts with you because of how the light is refracted at two different angles."*

**Hans Mutzke**  
Design Director, Lamin-Art  
Inventor of the Pearlescence collection

## 50 LUSTROUS COLORS!

\* NEW COLORS

*“Pearlescence is brighter, fresher, and friendlier, and the shimmer adds a sense of depth to the color.”*

**Peter Darlow**  
Partner, Darlow Christ

\* NEW FINISHES

6 REMARKABLE FINISHES!

*“With every project,  
I want a material that guests  
want to touch. Pearlescence  
is one of those materials,”*

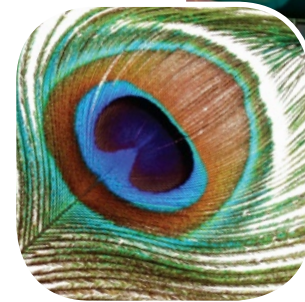

**Jerome CooperKing**  
Design Director, CKI Design Studio

Read the complete story at [www.pearlescence.com/1149](http://www.pearlescence.com/1149)

## INFINITE COMBINATIONS OF INSPIRING DESIGN OPTIONS

*“Pearlescence is the only product out there that replicates the depth of color and shine that you get using automotive paints. It’s easier to use and it costs less money to use it, especially on flat surfaces.”*

Michael Johannsen,  
President, Becker Studios

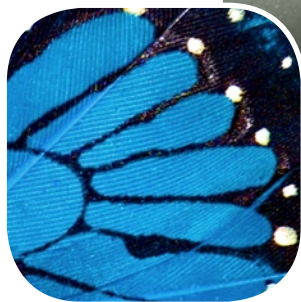

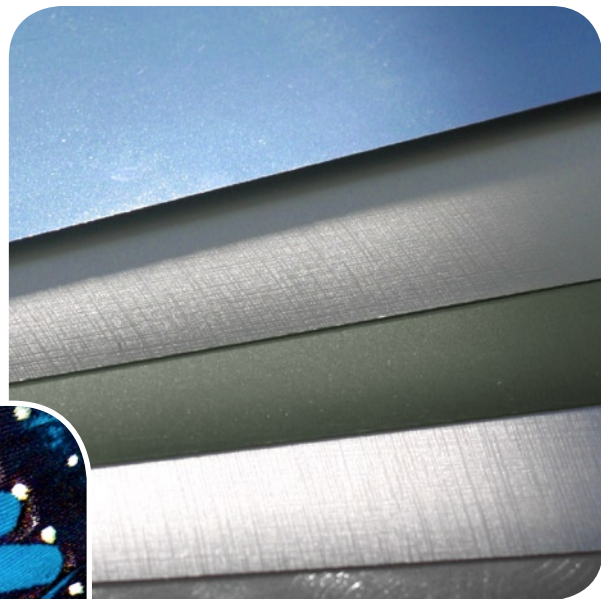

## ENJOY THE FREEDOM TO MIX AND MATCH

*"We use a lot of the Pearlescence, because you get the shimmer. You get the shine. The sparkle. It's like a butterfly wing. I even think of it like eye shadow."*

Rachel Mikolajczyk

Director, Resource Studio, Charles Sparks + Company

*"A surface has to inspire you. It has to make you feel good. ... My only ambition in life is to create surface materials that are well thought out, well made, and bring a new sensibility to the space by making the surfaces that much more interesting."*

**Hans Mutzke**

Design Director, Lamin-Art

Inventor of the Pearlescence collection

Come celebrate 25 years of Pearlescence!
